

Attorney Docket No.: 127723-1005  
Preliminary Amendment filed April 22, 2005

**Remarks**

Claims 1-31 were filed with International Application No. PCT/GB2003/004606 filed on 23 October 2003. This Preliminary Amendment cancels claims 1-31 and enters new claims 32-60. The new claims of this Preliminary Amendment find support in the co-pending International Application No. PCT/GB2003/004606 filed on 23 October 2003, and in the Substitute Specification filed concurrently with this Preliminary Amendment of April 22, 2005. Applicants respectfully request entry and allowance of this Preliminary Amendment.

The Substitute Specification filed concurrently with this Preliminary Amendment and the National Stage Application does not add new matter and does not reflect a departure therefrom in substance or variation in the disclosure of co-pending International Application No. PCT/GB2003/004606 filed on 23 October 2003. The Substitute Specification is submitted to comply with the requirements under 37 C.F.R. § 1.52, including providing a reference to co-pending International Application No. PCT/GB2003/004606 filed on 23 October 2003, that claims priority to Application Number 0224923.3 filed 25 October 2002, in the United Kingdom, and to correct typographical errors. Applicants submit that such submissions do not add new matter.

The Preliminary Amendment does not increase the number of independent claims and does not present any multiple dependency claims. If our calculations are in error and an additional fee, in addition to fees included with this submission, is due, please charge the additional fee to Deposit Account No. 07-0153. Please feel free to telephone the undersigned at the phone number listed below if there are any questions.

Respectfully submitted,

Dated: April 22, 2005
